Parti Sosialis PartiSosialis.org

Greetings from Parti Sosialis Malaysia (PSM).

PSM is a political party based on the ideas of socialism for an equal, just and fair society for all Malaysians.

It is reported that Malaysia is fast approaching to be an ageing society with close to 15% of our population will be 60 years old and above in 8 years' time. Unfortunately, those who do not receive government pensions or any other monthly benefits from the authorities, face great financial constraints to sustain themselves independently.

It is estimated that 56% of our elderly 'warga emas' need monthly assistance. Thus PSM is proposing a Senior Citizens Pension.
