

WE, the undersigned civil society organisations, collectively register our utter disgust over the prosecution of PAS deputy president Mohamad Sabu under Section 505 of the Penal Code with uttering statements tantamount to public mischief. He was even briefly arrested last night.

Charging Sabu goes against Prime Minister Datuk Seri Najib Tun Razak's pledge to promote openness and democracy on Malaysia Day.

It raises questions over the sincerity of PM Najib in announcing a series of reforms including amendment of the Printing Presses and Publications Act (PPPA), whether he has full control on the police or both.

We urge the government to immediately drop the politically-motivated charge of Sabu and stop intimidating dissidents who oppose and challenge official history and ideology.

We urge the PM and DPM, instead of using government machinery to criminalize Sabu, to take up the challenge posed by him by having a no-holds-barred TV debate on the Bukit Kepong issue.

Likewise, politicians, retired police and military personnel as well as groups like Perkasa can debate with Sabu or expose the flaws of his views in media or in forums. They should respect Sabu's right to have opinions from theirs.

Resorting to the state power to silence an opponent's view is an act of cowardice. It shows only insecurity and no confidence to win a debate with facts and reason.

Such suppression of freedom is in fact an insult to independence of this country. For with independence, Malaysians should enjoy human rights and freedoms, unlike subjects of colonies or one-party states.
