

When the Water Rises....A Malaysian Climate Change Story

This is a MUST READ

It affects all of us, now & in the future!

When the Water Rises.....Climate Change is Here!

Monday, 29 August 2022 14:42 - Last Updated Monday, 29 August 2022 15:23

But how can we deal with the rising sea levels and the trail of destruction? This is the question that is being asked by many people around the world. The answer is not simple, but it is clear that we need to take action now.
